

Teamwork Brings Success

ECSS will become a reality thanks to the teamwork of the Air Force, Team CSC, and Oracle. These groups collaborated on all aspects of the program, from planning to development to the fielding of the solution. Such direct involvement from all corners of the Air Force Logistics community, as well as from experienced industry professionals, ensures that ECSS will support the Air Force's logistics needs.

Broad Representation

A partial list of organizations involved in developing ECSS include:

- Air Combat Command (ACC)
- Air Education and Training Command (AETC)
- Air Force Global Logistics Support Center (AFGLSC)
- Air Force Logistics Management Agency (AFLMA)
- Air Force Materiel Command (AFMC)
- Air Force Reserve Command (AFRC)
- Air Force Space Command (AFSPC)
- Air Force Special Operations Command (AFSOC)
- Air Mobility Command (AMC)
- Business Transformation Agency (BTA)
- Defense Finance and Accounting Service (DFAS)
- Defense Logistics Agency (DLA)
- ECSS Logistics Transformation Office (LTO)
- ECSS Program Management Office (PMO)
- HQ USAF Director of Transformation (AF A4I)
- Oracle
- Pacific Air Forces (PACAF)
- Secretary of the Air Force-Contracting (SAF/PK)
- Secretary of the Air Force-Financial Management (SAF/FM)
- Team CSC
- US Air Forces Europe (USAFE)
- US Transportation Command (USTRANSCOM)

Touching All Program Aspects

Representatives from these groups were involved in activities such as:

- Designing ECSS in the Blueprinting phase
- Configuring ECSS in the Implementation phase
- Reviewing Air Force, Department of Defense, and Office of the Secretary of Defense policy to see if any items need to be changed or waived for ECSS
- Analyzing legacy systems and recommending which should be replaced by ECSS
- Working to find what data will need to be migrated into the system
- Planning hardware and technical environment needs
- Gathering data on how personnel roles will change
- Planning a strategy for testing and validating ECSS
- Forming a strategy for how ECSS will be released to the field
- Developing education and training for end users

The ECSS Transformation

The Expeditionary Combat Support System (ECSS) end-state represents the single biggest change in the history of Air Force Logistics. ECSS is an Air Force Logistics transformation which will provide integrated software, standardized business processes, and transformed personnel roles. As the cornerstone enabler for the Expeditionary Logistics for the 21st Century (eLog21) campaign — a campaign to transform Air Force Logistics processes — ECSS will revolutionize how the Air Force supports the Warfighter.

Team ECSS
